

Quick-Start Guide:

Using your **Cardo**[®] Device with **BRP** **Connect**[™]

1st. Step: Make sure your Cardo® Device is running the latest available firmware (<https://www.cardosystems.com/support/>).

2nd. Step: Make sure your Phone's Operating System, **Cardo®** Connect app and **BRP** Connect™ app are installed updated to the latest versions.

3rd. Step: Connect your **Cardo®** Device via Bluetooth to your Phone ([further instructions available in the respective manuals, if required](#)).

4th. Step: Confirm if your **Cardo®** Connect App is recognizing the Headset by launching it on the phone after the 3rd. step ([if connection is not possible, restart your phone and go back to the 3rd. Step](#)).

5th. Step: Open the Bluetooth Settings of your **BRP**[®] Vehicle and connect your Phone and **Cardo**[®] Device as a Rider Helmet. (further instructions available in the respective manuals, if required).

6th. Step: Open your Phone's Bluetooth Page and confirm that both **BRP Connect**[™] and **Cardo**[®] Device are connected.

Final Step: Connect your Phone to your **BRP**[®] Vehicle via the USB Cable and launch **BRP Connect**[™] (further instructions available in the respective manual, if required).

Your **Cardo**[®] Device should now be fully useable during your ride!
